CONFERENCE INTRODUCTION
2022 12th International Conference on Environmental Engineering and Applications (ICEEA 2022) to be held on June 24-26, 2022 in Xi'an | Sian, China. The conference was organized by the Hong Kong Chemical, Biological & Environmental Engineering Society(HKCBEES), Environment and Agriculture Society (EAS) and supported by Xi 'an Jiaotong University and Chang 'an University. The ICEEA conference series have been held successfully in Shanghai, Dubai, Singapore, Nottingham, Chengdu, Kuala Lumpur, Rome, Amsterdam and Prague. ICEEA 2022 will provide a forum for researchers and practitioners in the field to share ideas, designs, and experiments.

PUBLICATION
1. For papers submitted to ICEEA 2022, after the peer reviewing process by at least 2-3 experts, all the accepted papers will be published into International Conference Proceedings which is indexed by Ei Compendex and Scopus, etc.

2. About 10% excellent papers with extension will be recommended to scopus indexed journals as usual. Journal of Environmental Science and Development (IJESD, ISSN:2010-0264), and all accepted papers will be indexed by Scopus and included in the Chemical Abstracts Services (CAS), CABI, Ulrich Periodical, Directory, Electronic Journals Library, Crossref, ProQuest.

CALL FOR PAPER

Topics of interest for submission include but are not limited to:

1. Environmental Ecological Engineering
   - Ecosystem Management and Sustainable Development
   - Global environmental change and ecosystems management
   - Biodiversity conservation
   - Deforestation
   - Soil decontamination

2. Environmental Monitoring and Management
   - Environmental Monitoring and Management
   - Health and the Environment
   - Hazardous substances and detection techniques
   - Transboundary cooperation

3. Environmental Monitoring and Management
   - Atmospheric science and air pollution control
   - Meteorology
   - Global warming
   - Biofuels
   - Indoor air pollution
   - Control technologies
   - Emission sources
   - Control technologies

4. Resources and Environment Engineering
   - Water Resources Management and Water Pollution Control
   - Physical oceanography
   - Ground water management
   - Process modelling
   - Industrial wastewater treatment
   - Hydrology

5. Resources and Environment Engineering
   - Atmospheric science and air pollution control
   - Meteorology
   - Global warming
   - Biofuels
   - Indoor air pollution
   - Control technologies
   - Emission sources
   - Control technologies

6. Resources and Environment Engineering
   - Solid Waste Pollution Control and Resource Utilization
     - Solid waste management
     - Resource management
     - Leachate treatment
     - Waste valorization
     - Waste valorization
